

What do we do with the data?

- 🖥️ Collect data sets from different sources
- 🖥️ Archive original files
- 🖥️ Process data into a standard format

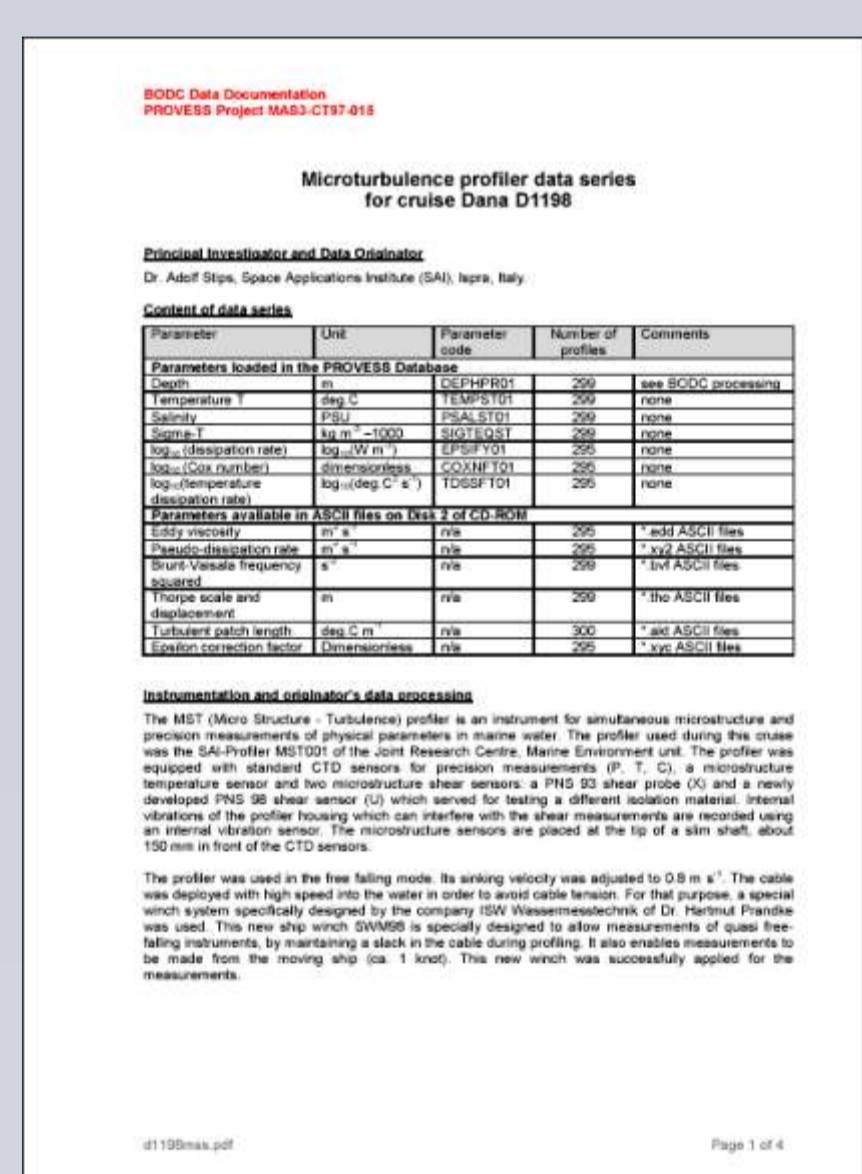

- 📄 Quality control the data
- 📄 Calibrate data where appropriate

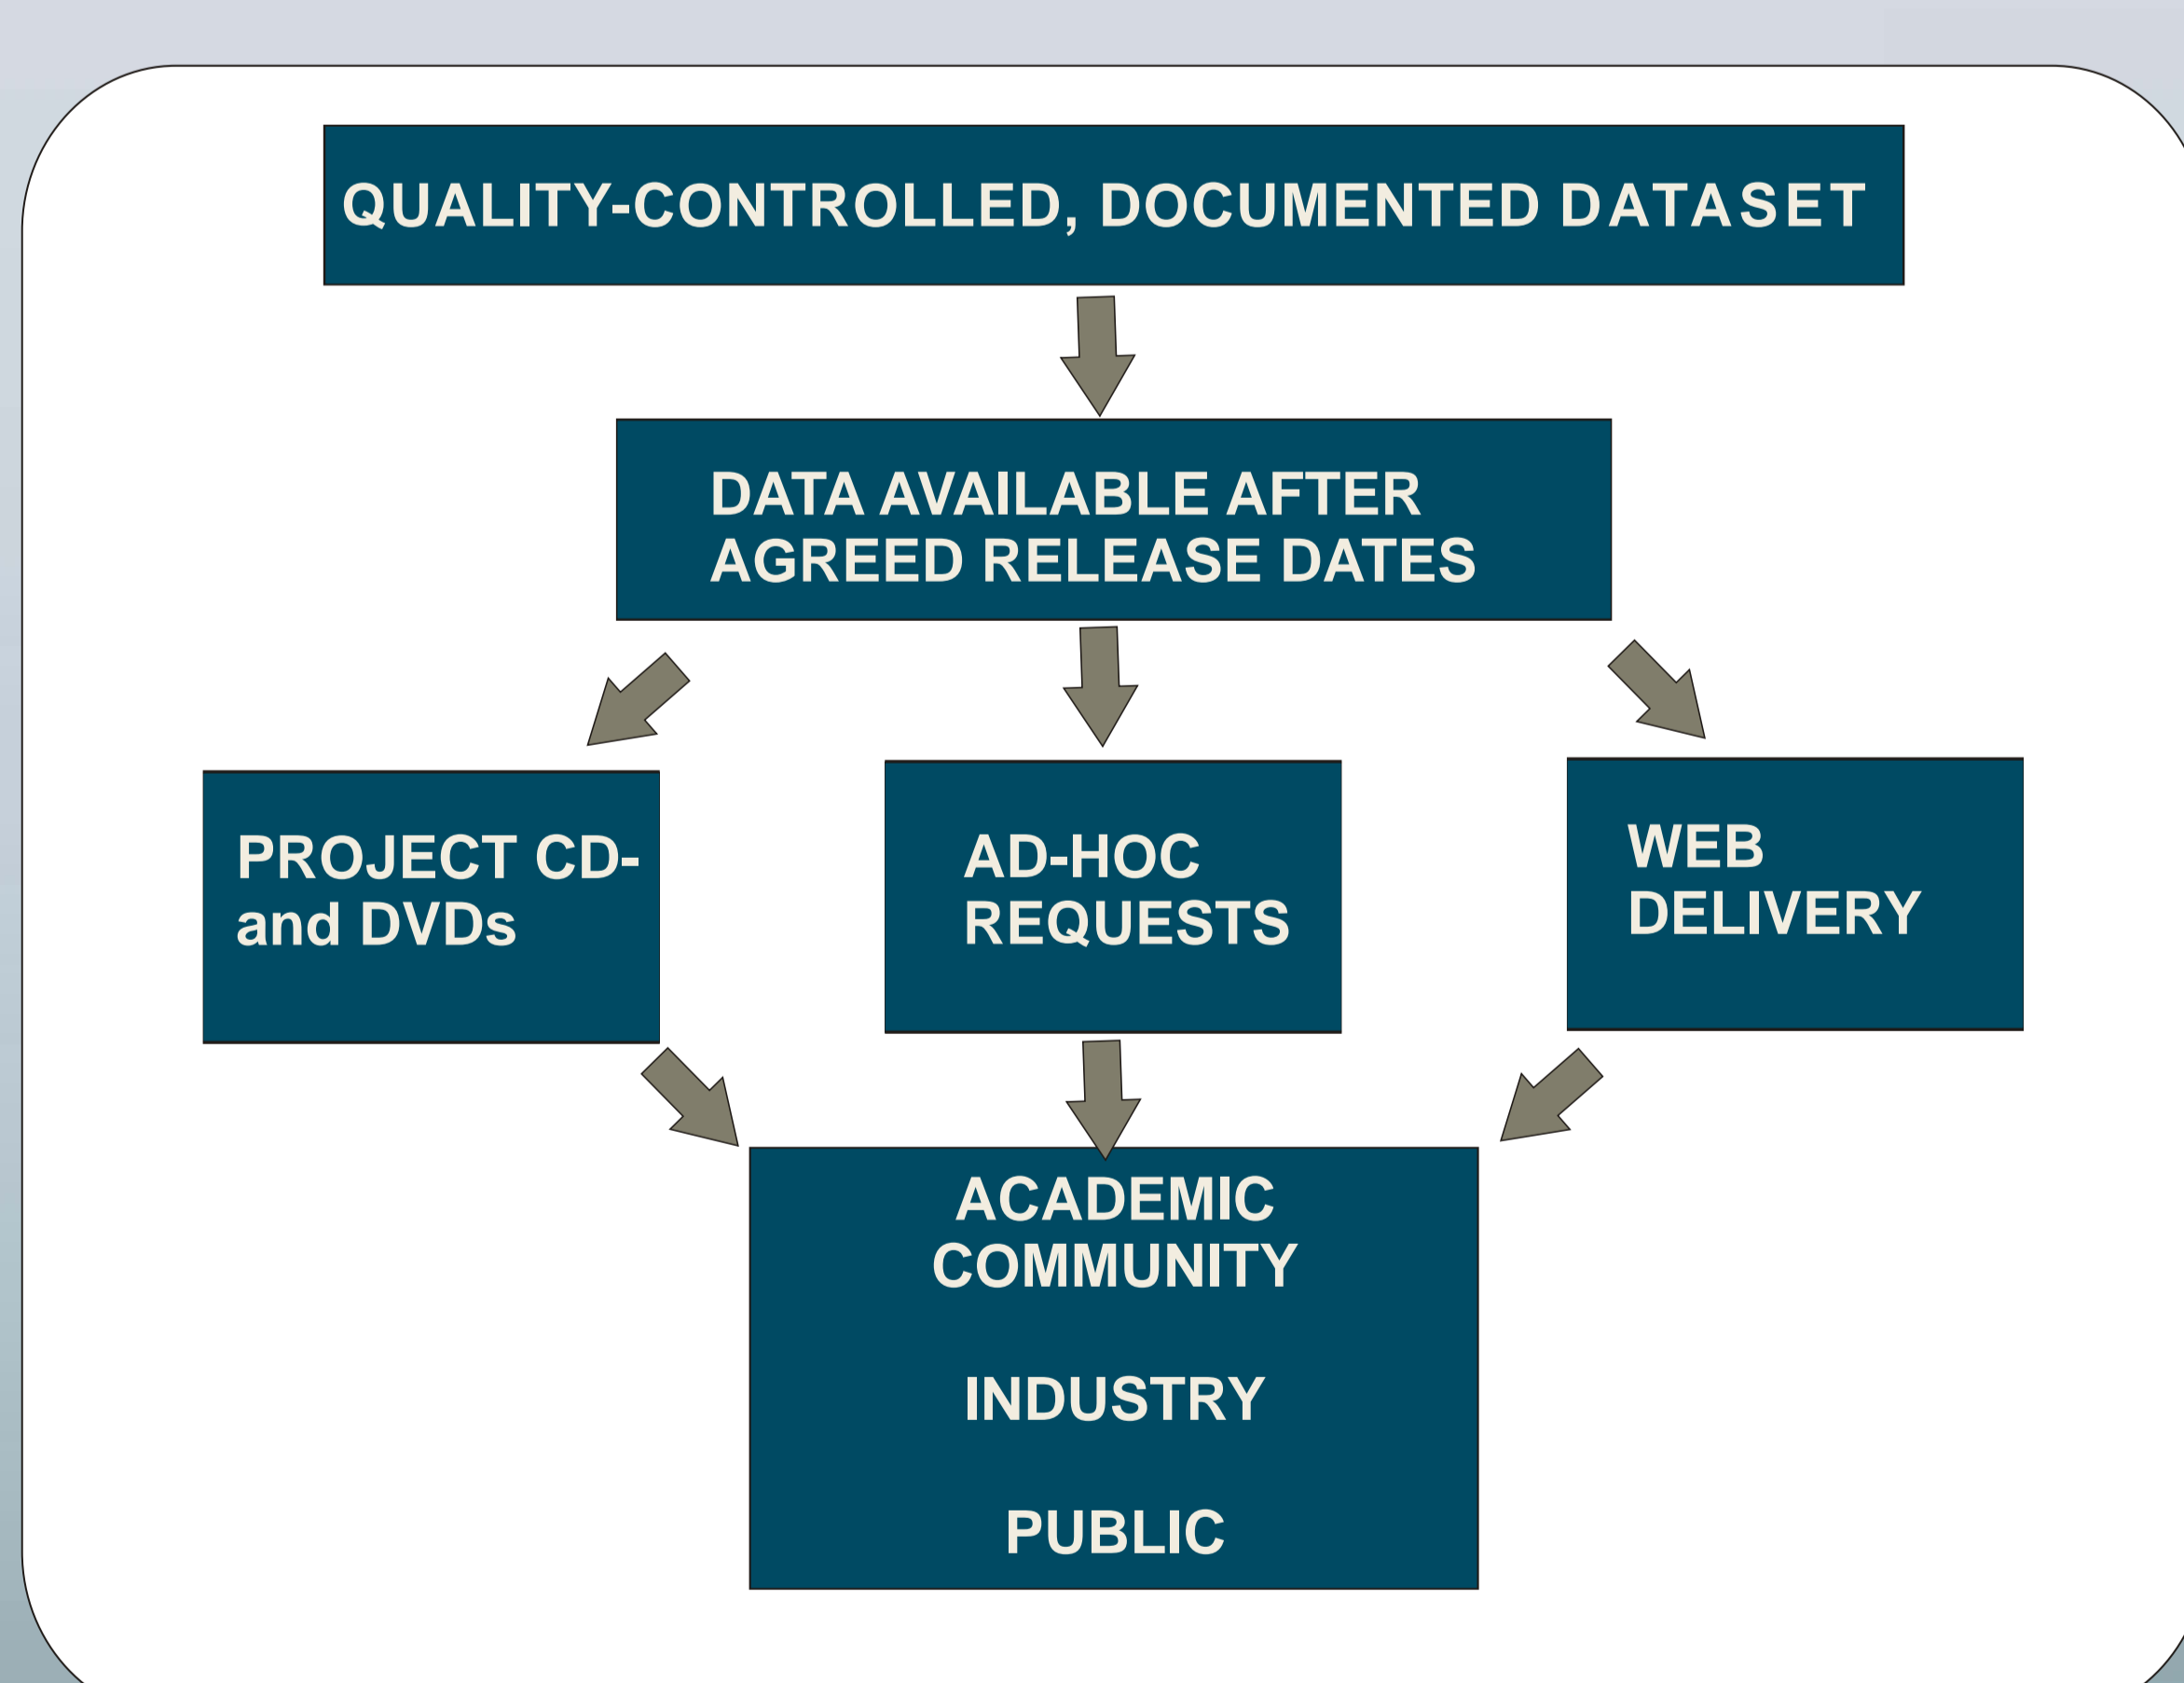

Integrate data into relational databases

For future use, document each dataset to provide crucial information about

- 📄 Data collection and analysis
- 📄 Context of the data set
- 📄 Data originators
- 📄 BODC processing and quality control

A unified and searchable national database to redistribute data on request or via data products / web delivery services

British Oceanographic Data Centre
