- N° of scientists : **6-8**
- (A nominall roll of all personnel other than nationals of the applicant (flag) state is required)*
8. Geographical area in which ship will operate (with reference in latitude and longitude)
- Belgian, UK, French waters  
Between N50°00', W 2°00'; N54°00, E 4°50'**
9. Brief description of purpose of cruise
- Experimental testing of technical innovations in fishing gears, hereby focusing on a more sustainable Sea Fishery Sector**

10. Port of Call. Dates. Reasons

Zeebrugge	18/02/2019	Departure homeport. Start of research cruise RV Belgica 2019/4
Zeebrugge	22/02/2019	Arrival homeport. End of research cruise RV Belgica 2019/4

11. Any special logistic requirements at ports of call (other than water, fuel provisions, etc.) **N.A.**

**NOTIFICATION OF PROPOSED RESEARCH CRUISE****PART B: DETAIL**

1. Name of research ship **RV BELGICA** Cruise N° **2019/4**
2. Dates of cruise From **18 Februari 2019** To **22 Februari 2019**

3. Purpose of research and general methods. (If the research work is being taken on behalf of a research institution of a third state, it is the responsibility of that state to obtain prior permission; it is essential that written confirmation that this has been done is obtained and quoted in this application.

**On July 14, 2011 the European Commission (COM) published the proposal for a new CFP to replace the current Regulation (EC) No 2371/2002. The main change is the introduction of a discard ban in the form of a gradual introduction of an obligation, starting from 2016. In the end, this should lead to a landing obligation for almost all species. Research on improving the selectivity of towed gears to both length and species composition is therefore necessary. In the coming years, the available shiptime on the research vessels will be used mainly for that purpose (mainly through COMBITUIG, a project funded by EFMZV and the fisheries sector).**

4. Attach chart(s) showing (on an appropriate scale) the geographical area of the intended work, positions of intended stations, tracks of survey lines, positions of moored / seabed equipment. Attach chart with list of positions (+ geographical references)

**See Annex 1 (Chart)**

**See Annex 2**

5. Types of samples required, e.g. Geological / Water / Plankton / Fish / Radioactivity / Isotope ....

**fish**

and methods by which samples will be obtained (including dredging/coring/drilling).

**8 m twin beam trawl**

6. Details of moored equipment : **N.A.**

Dates Laying	Recovery	Description	Latitude	Longitude

10. State :

(a) Whether visits to the ship in port by scientists of the coastal state concerned will be acceptable.

**Yes**

(b) Whether it will be acceptable to carry on board an observer from the coastal state for any part of the cruise and dates and ports of embarkation / disembarkation.

**Yes, cfr. part A § 10**

(c) When research data from intended cruise is likely to be made available to the coastal state and if so by what means. (If the final report is likely to be delayed beyond 12 months, interim progress reports are required.

**Cruise report within 1 month by request to the chief scientist**

## **ANNEX 2**

### **RV Belgica research cruise 2019/4: coordinates of cruise**

The fishing grounds are located in Belgian, UK and French waters, mainly in the southern North Sea and (to a lesser extent) in the eastern English Channel. The exact location of the fishing grounds can't be determined in advance due to the migration of the different target species and the unpredictability of future weather conditions. However, the week before embarking communication is planned to all parties involved concerning the most probable fishing grounds for the research cruise.
