2. Description of Project

2.1 Nature and objectives of the project:
<p>Since 2006 the Marine Institute have carried UWTV surveys of the Celtic Sea <i>Nephrops</i> grounds which includes the Smalls and Labadie <i>Nephrops</i> grounds. The results of the survey series were used to describe the abundance, distribution and estimate the biomass of <i>Nephrops</i> in the Celtic Sea.</p> <p>2.1 Nature of objectives of the project:</p> <ol style="list-style-type: none"> 1. To obtain 2014 quality assured estimates of <i>Nephrops</i> burrow densities from a randomised isometric grid of UWTV stations at 4 nautical mile spacing on the Smalls <i>Nephrops</i> grounds. 2. To obtain 2014 quality assured estimates of <i>Nephrops</i> burrow densities from from a randomised isometric grid of UWTV stations at 6 nautical mile spacing Labadie, Cockburn and Jones Banks. 3. To collect ancillary information from the UWTV footage collected at each station such as the occurrence of sea-pens, other macro-benthos and fish species and trawl marks on the sea bed.

4. To collect oceanographic data using a sledge mounted CTD.
5. To satisfy the requirements of the Irish National programme under the 'Data collection regulation' EC Regulation 1543/2000.

The sled will be towed by a load bearing umbilical cable and associated winches.
--

RV Celtic Voyager will making between 2-3 knots for shooting into the weather. Once in the water the camera lights are switched on and warp paid out until the seabed comes into view. Shortly before touch down the vessel is slowed back to 0.8-1.0 knots. A warp-depth ratio of around between 1.4:1 and 1.8:1 is used at most stations. Once stable on the bottom the sledge is towed between 0.8-1.0 knots for around 10-14 minutes. During this time the sledge travels between 160-200m along the sea bed.

The sledge will be deployed at around 4-6 nautical mile intervals in regularly spaced grid over the survey area. The starting point for this grid will be randomized. The depth range will be from 50-147 meters (average ~100 m) for the Celtic Sea.
