2. Description of Project

<b>2.1 Nature and objectives of the project:</b>
--

**Mal søknad Britiske Myndigheter - Application for Consent to conduct Marine Scientific Research**

*Survey of shrimp (Pandalus borealis) (for stock assessment) and demersal fish in the Norwegian Deep and Skagerrak. Measurements of salinity and temperature (CTD). Survey of shrimp on Fladen Ground; this shrimp stock has not been fished for many years and we wish to investigate whether the stock has collapsed or not.*

2.2 If designated as part of a larger scale project, then provide the name of the project and the Organisation responsible for coordinating the project:

2.3 Relevant previous or future research projects:

Annual survey as part of the assessment of the shrimp stock in Skagerrak and the Norwegian Deep.

Fladen Ground was covered by this survey in 1987, 1988, 1989, 1991, 1993, 1994.

2.4 Previous publications relating to the project:

*ICES working group on Pandalus stocks (NIPAG), yearly reports since 1984.*

### 3. Geographical Areas

3.1 Indicate geographical areas in which the project is to be conducted (with reference in Latitude and longitude in decimal degrees, including coordinates of cruise/track/way points/sampling stations). Please provide coordinates in a separate excel spreadsheet.
