### Application for Consent to conduct Marine Scientific Research

Date: 31 Oct. 17

#### 1. General Information

1.1 Cruise name and/or number: 2018819

1.2 Sponsoring Institution(s):	
Name:	Institute of Marine Research
Address:	P.O.Box 1870 Nordnes
	N-5024 Bergen Norway
Name of Director:	Sissel Rogne

1.3 Scientist in charge of the Project:	
Name:	Åge Høines
Country:	Norway
Affiliation:	Institute of Marine Research
Address:	P.O.Box 1870 Nordnes
	N-5024 Bergen Norway
Telephone:	+47 55238500
Fax:	+47 55238531
Email:	aageh@imr.no
Website (for CV and photo):	NA

1.4 Entity(ies)/Participant(s) from coasta	l State involved in the planning of the project:
Name:	Eric Armstrong
Affiliation:	FRS Marine Laboratory
Address:	PO Box 101, 375 Victoria Road,
	Aberdeen, AB11 9DB, UK
Telephone:	
Fax:	
Email:	E.Armstrong@MARLAB.AC.UK
Website (for CV and photo):	NA

## 2. Description of Project

## 2.1 Nature and objectives of the project:

IBWSS, International Blue Whiting Spawning stock Survey, coordinated by ICES. The main purpose of the cruise is the assessment of the spawning stock size, distribution and migrations of blue whiting using acoustic methods combined with sampling with pelagic trawls. The cruise is part of an international coordinated blue whiting survey with vessels from the Netherlands, Ireland, the Faroes, Norway, and Russia participating. Information on other species such as argentines, mackerel and horse mackerel is collected upon encounter.

2.2 If designated as part of a larger scale project, then provide the name of the project and the Organisation responsible for coordinating the project:

International blue whiting spawning stock survey (IBWSS), organized by the WGIPS (ICES)

## 2.3 Relevant previous or future research projects:

The cruise has been undertaken since spring 1986-1996, 1998-2012 and 2014-2017 with Norwegian research vessels. A similar cruise for spring 2019 is planned.

## 2.4 Previous publications relating to the project:

Interim Report of the Working Group of International Pelagic Surveys (WGIPS). ICES CM 2017/SSGIEOM:15 Ref. SCICOM, WGISUR, ACOM, WGWIDE, & HAWG ICES, Copenhagen (<a href="http://ices.dk/sites/pub/Publication%20Reports/Expert%20Group%20Report/SSGIEOM/2017/WGIPS/WGIPS%202017.pdf">http://ices.dk/sites/pub/Publication%20Reports/Expert%20Group%20Report/SSGIEOM/2017/WGIPS/WGIPS%202017.pdf</a>).

## 3. Geographical Areas

3.1 Indicate geographical areas in which the project is to be conducted (with reference in Latitude and longitude in decimal degrees, including coordinates of cruise/track/way points/sampling stations). Please provide coordinates in a separate excel spreadsheet.

Area of operation is the Atlantic Ocean in the area west of Scotland (Hebrides), including work inside the UK EEZ

Survey area covers: 54°N - 62° N, 18°W - 02°W

3.2 Attach chart(s) at an appropriate scale (1 page, high-resolution) showing the geographical Areas of the intended work and, as far as practicable, the location and depth of sampling Stations, the tracks of survey lines, and the locations of installations and equipment.

See Fig. 1 for map of IBWSS survey area and the coverage in 2017. Detailed planning with each participating vessel's survey track for 2018 to be done at a later stage by the international coordinator.

#### 4. Methods and means to be used

4.1 Particulars of vessel:	
Name:	Kings Bay
Type/Class:	Fishing vessel
Nationality (Flag State):	Norwegian
Identification Number (IMO/Lloyds No.):	9617985
Owner:	Kings Bay AS
Operator:	Institute of Marine Research
Overall length (meters):	77.5 m
Maximum draught:	7.5 m
Displacement/Gross Tonnage:	4027 GT
Propulsion:	4000 Kw
Cruising & maximum speed:	14 / 18.5 Knots
Call sign:	LCNN
INMARSAT number and method and capability	Telephone: 21549242-43-44-45
of communication (including emergency	(mob phone: +47 900 75 641)
frequencies):	Telefax: NA
	E-mail: bjorn@kings-bay.no
Name of Master:	Bjørn Sævik
Number of Crew:	11
Number of Scientists on board:	7 (8)

4.2 Particulars of Aircraft:	
Name:	
Make/Model:	
Nationality (flag State):

6.1 Expected dates of first entry into and final departure from the research area by the research vessel and/or other platforms:

Sometime within the period 23.03 - 05.04. Timing and location of where the vessel will be, is weather dependent and therefore difficult to predict.

6.2 Indicate if multiple entries are expected:
Probable.
7. Port Calls
For cans
7.1 Dates and Names of intended ports of call:
•
NONE
7.2 Any special logistical requirements at ports of call:
NONE
7.3 Name/Address/Telephone of shipping agent (if available):
