## CRUISE REPORT

F.R.S. "CLUPEA"

December 7th - 19th, 1964.

Objectives

1. To carry out a routine trawl survey of 0+1 group Herring in the Moray Firth.
2. To collect blood samples.

Despite very poor weather in the first week and latter half of the second, 19 of the 21 stations were successfully completed. Catches of Herring were poor at all but a few stations. Blood was collected and dispatched to the Laboratory on two occasions each week.
