Aims

1. Design evaluation trials, full scale manoeuvring trials and stabiliser trials to be carried out by personnel of B.S.R.A., N.P.L. and W.F.A. Staff to be exchanged at Plymouth on 1st and 7th October, as necessary.
2. Stabiliser trials also to be carried out in the neighbourhood of Portland, in conjunction with A.U.W.E. on September 28th and 29th.
3. Manoeuvrability with trawl down to be tested.

Narrative

The CORELLA left Lowestoft at 1400/26 September and after calibrating the DF made passage for Portland, arriving at 0830/28th.

Two days were spent on the Bexington Range before continuing to Plymouth. There the main party for the trials was embarked.

Speed, manoeuvring with and without trawl, and stabilising trials were carried out in a variety of weather conditions and will be the subject of a combined report when the extensive trials data have been analysed.

On the return passage several trawl hauls were made in the Sizewell Bank area and a sample of live soles was brought in for Dr. Purdom.
