Cruise 7/81

REPORT

29 July - 19 August 1981

Objectives

To carry out a demersal trawling survey in the North Sea.

Narrative

*Explorer left Aberdeen at 1700 hours on 29 July. The mid-trip break was taken in Aberdeen between 0600 hours on 10 August and 1200 hours on 11 August. *Explorer ended the cruise in Leith on 19 August.

Adverse weather conditions prevented work on only $\frac{4}{2}$ days. The positions of each haul and the associated date are shown on the attached charts.

Results

Sixty-four hauls were carried out during the trip. Data from these hauls will be stored on the computer for future analysis.

Details of the numbers of fish stomachs examined and preserved are recorded in Table A.

One hundred and eleven fish of various species were weighed at sea and all otoliths collected were mounted and read at sea.
