CRUISE REPORT

F.R.V. "MARA"

27th - 28th August, 1958

The cruise scheduled for 27th August - 2nd September was cut to two days since it had been arranged that the ship should leave Aberdeen on 29th for alterations at the shipbuilders.

The first day was spent working out a suitable set up on board for the television gear. On the second day attempts were made to operate the gear off Cove and later in Aberdeen Bay, but weather conditions - fog and a heavy swell - made work impossible. The ship therefore returned to Aberdeen, where the gear was tested in the harbour and a satisfactory system of working was devised.
