Charter Vessel *Ocean Way* (BF 64)

Cruise 1495H

REPORT

20-24 November 1995

Ports

Loading: Lochinver

Unloading: Lochinver

Personnel

R D Galbraith	SSO (in charge)
J T M Hunter	PTO
N S Collie	PTO
R J Kynoch	SO
L Muller	Visitor

Objective

To carry out fully instrumented twin trawl measurement trials at various towing speeds and warp lengths.

Outline days per project: 4 days IAI1

Narrative

Staff and instrumentation travelled to Lochinver on 19 November. Trials commenced on 20 November and continued until 21 November but no work was possible on 22 or 23 November due to adverse weather conditions. With no prospect of the weather improving staff returned to Aberdeen on 23 November and the equipment was transported the following day.

Results

Three fully instrumented hauls were made. The results are being analysed in the Laboratory.
